WORK EXPERIENCE

Consultant, Capgemini Technology Services India Limited — Aug 2021 – Present

Client: Coca-Cola Europacific Partners (CCEP) — Project Type: Implementation

- Implemented and tested standard OData and SOAP APIs; created multiple RAP-based custom OData APIs aligned with the Clean Core approach.
- Enhanced standard OData and SOAP APIs; developed CDS views and configured CBC/CBO objects, BRF+ rules, and CFL extensions to enable custom processes without core modifications.
- Conducted POC analysis; developed integration and reporting objects supporting ECC to S/4HANA Cloud migration.
- Analyzed and resolved standard IDoc issues; identified and implemented enhancements to stabilize integrations.

Client: Serco — Project Type: Support & Implementation

- Delivered change requests (CRs) and automations; contributed to FSD solutioning and effort estimation.
- Provided end-to-end support across QA, Pre-Prod, Prod, and Post-Prod; resolved incidents and defects with timely closure.
- Implemented FSCM enhancements and built ALV reports (OO ABAP); developed Smart Forms; created custom tables and TMG events; leveraged BAdI/BTE/BAPI for process customization.
- Developed interfaces using RFC function modules and IDocs (inbound/outbound); built HR data-transfer reports via AL11.
- Created RFC-enabled FM for dynamic HR infotype updates.
- Added custom fields/logic to standard transactions (UDM_SUPERVISOR, V.02, IW73).
- Build custom infotypes and module pool enhancements; created outbound IDoc for employee/org data changes.
- Worked on OData for guided buying; resolved incidents across IDocs, job failures, BAPIs, custom reports, and standard processes.
- Automated: integrated Solution Manager with ServiceNow for ticketing; automated Firefighter access monitoring and approvals; customized SAP BPMon interfaces.
